E-CATALOGUE

Sourcing and foreign trade from Türkiye · 18 categories · 155 product lines

ABOUT US

Soysal International is an Istanbul-based international trade and sourcing company. We meet the material and product requirements of corporate buyers through a single point of contact: you send us your list, we identify the most suitable manufacturer for each order.

However many manufacturers are involved, we consolidate everything into one shipment, carry out quality control, prepare customs paperwork and the destination country's conformity documents (SONCAP, KEBS PVoC, SABER/SASO, ESMA, CE, A.TR) and deliver under one invoice.

Our consolidated quotation is issued within 48 hours on average. Requirements of any scale are accommodated, from a single line item to a mixed container. This catalogue lists the product lines we supply across 18 categories; if what you need is not here, ask anyway — our sourcing network is not limited to it.
